Keep Calm... and Warm Up to Spring

by Bruno Galle, SFRA President

It looks like winter is almost done (it officially ended on March 18th), but unfortunately, due to the evolving reality of the COVID-19 pandemic, many of the spring activities and events we all have planned will more than likely have to wait longer than originally scheduled. Hopefully, all of this will be behind us soon enough and we'll see the normal flurry of activities in our neighbourhood once again.

At press time, we are cautiously optimistic that our Fun Day and Summer Social events will go ahead as planned on Saturday, June 27th (yes, it was moved by a week due to some scheduling conflicts). The SFRA Executive is already winding up its resources to prepare for our biggest event of the year. We will keep you updated regarding this event and our upcoming Easter Egg Hunt and Earth Day activities that were originally scheduled for Sat. Apr. 11th and Sat. Apr. 25th, respectfully.

Given the need for social distancing to "flatten the curve" and minimize the spread of the coronavirus, these events will likely be cancelled. We will be posting updates via email, Facebook and SFRA.ca.

The Carmel Heights public meeting on February 24th at Mississauga City Hall had a great turnout that spilled over into two adjoining rooms. Members of the Carmel Height Redevelopment Committee (CHRC) had prepared pointed questions regarding the proposed development, and there were some thoughtful questions from concerned neighbours.

We were very pleased on how Councillor Matt Mahoney continued to remind the audience

that questions or comments should relate to 'planning issues' only. He also summed it up beautifully at the close of the meeting when he told the developer to "get out the eraser and sharpen his pencil."

If you missed the Planning & Development Committee (PDC) meeting, you can watch it in its entirety by going to the following website, then clicking on the "PDC – Feb 24, 2020" link on the right side.

mississauga.ca/portal/cityhall/council-and-committee-videos

As a community, we need to continue to ask questions and raise our concerns, so that if the current proposal goes to LPAT, as it most likely will, the developer can modify the application again for re-zoning for up to 6 stories or more, and our concerns, questions, etc. will also be considered and be a part of the public record. Stay tuned for any updates to the redevelopment application.

Despite the shock and disruption to our lives from COVID-19, it is an opportunity to communicate and reconnect with family and friends (over the phone and online, of course). Also, as some folks are already doing, please connect with an elderly neighbour who may need help to go out to buy groceries or other supplies (no hoarding though!).

Please stay safe, be good to each other and don't forget to wash your hands and keep your hands away from your face. We will get through this!

Easter Egg Hunt
Dean Henderson Park
CANCELLED
Saturday, April 11th @ 10:30am

What's Shakin' in the hood?

STOP Means STOP

We've had a number of residents who have reached out and reported that many vehicles are not making a full stop on Robin Drive and Hammond Road. These are people who live in our neighbourhood, not just people cutting through Sherwood Forrest to avoid traffic on Erin Mills Parkway. Please, please actually STOP at a stop sign and SLOW down.

Family Skate

After some slushy Family Skates the last two years, we finally had perfect weather, which encouraged many families and skaters to come out to enjoy the fresh air, tasty Timbits and hot chocolate. Thank you to all the volunteers who continue to keep our ice on ice as best they can during the ever-changing and challenging weather conditions.

The 311 on Leaf Pickup

Due to the unexpected snowstorms we experienced last fall, all the leaves that collected alongside our curbs were not picked up. While street sweepers will begin cleaning roads in April, **there will be no vacuum leaf collection.** If you have piles of leaves, you will have to bag them. If you are unable to do it yourself, you can call 3-1-1 and arrange for a city crew to collect them. You can also call 3-1-1 to report if your lawn was severely damaged by snowplows over the winter.

2020 Sherwood Forrest Membership Drive

by Alouise Henderson

It's now spring and time to focus on our Membership Drive (as much as we can with COVID-19). I know there's a lot of activity in the neighbourhood with the CHRC and the ongoing proposal for the redevelopment of Carmel Heights. Just to be clear, this is the **SFRA (Sherwood Forrest Residents Association) Membership Drive** which funds the activities in our neighbourhood, such as the Easter Egg Hunt, Earth Day and Fun Day & Summer Social.

The annual membership fee is \$20 (or more, if you can give more).

- Drop your membership dues at 2581 Robin Drive. Have your name, address and email on the envelope that is attached to this newsletter
- E-transfers are accepted at sfreatreasury@gmail.com – **no password required**
- Cheques are payable to **"SFRA" or "Sherwood Forrest Residents Association"**
- Volunteers will be canvassing your street if you haven't paid and they will be identified with an SFRA name tag

Thank you to all our volunteers who have so kindly canvassed for our membership drive by going door to door. (There may be a delay due to the coronavirus... more reason to use E-transfer... if you have not done so before, now is a good time to learn, it's easy!)

We still require some additional volunteers so if you're new to the neighbourhood and would like to get involved or perhaps find you have some extra time, please contact me at henderson.h@rogers.com or 905.823.2099.

Like It or Not

Like It...

During the COVID-19 outbreak, many residents have stepped up to offer their assistance in helping out with child care, shopping, dog walking and other errands. Thank you. Proud to be living in this neighbourhood.

Not...

People who drive their cars into Sherwood Green Park, especially the incredibly rude tennis pro. (He laughed when I politely asked him to move.)

Like It...

The Dalou family welcomed home twin boys, Sami and Majd, in November!

Not...

Neighbours leaving garbage containers on their driveways all the time. These items should not be visible from the street whether directly in the driveway or not. That's what backyards and garages are for!

Like It...

One afternoon I saw a beautiful deer in someone's front yard on Robin Drive. We are lucky to live in a neighbourhood where such sightings are even possible!

Not...

We found our backyard door open and obviously someone was enjoying a coke that they left behind! Fortunately, we always lock our doors. Maybe it's a good idea to check on your backyards, keep your doors locked and report any suspicious activities.

neighbourhood news

Important COVID-19 Information

Unless you've had no outside contact with the outside world for the last month, by now you are quite familiar with COVID-19 (coronavirus). But we thought it would be good to recap a few important points.

Symptoms of coronavirus:

Those infected with COVID-19 may have little or no symptoms. Symptoms may take up to 14 days to appear after exposure and may include:

- fever
- cough
- difficulty breathing
- muscle aches and headaches
- pneumonia in both lungs

Coronavirus is most commonly spread from:

- coughing, sneezing or close personal contact, such as touching or shaking hands

- touching something with the virus on it, then touching your mouth, nose or eyes

How to prevent the spread of coronavirus:

- wash your hands often with soap and water for at least 20 seconds, especially after using the washroom and when preparing food
- use an alcohol-based hand sanitizer with at least 70% alcohol if soap and water are not available
- cough or sneeze into a tissue or the bend of your arm, not your hand
- avoid touching your eyes, nose, or mouth with unwashed hands
- frequently clean high-touch surfaces in your home (counters, phones, remotes, door handles) with household cleaners or diluted bleach (1 part bleach to 9 parts water)

- stay at home and self-isolate as much as possible (i.e., social distancing)

- especially avoid older adults and those with chronic conditions or compromised immune systems

- have supplies delivered to your home instead of running errands

- most pharmacies deliver, so call ahead instead of going in

- if you must leave home maintain a 2-metre distance from others

If you have symptoms or are concerned about your health, stay home and call your family doctor or Telehealth Ontario at 1.866.797.0000 and speak with a registered nurse.

For the latest information on the coronavirus, please visit the government of Canada website at: canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/prevention-risks.html

Helping Out

Thanks to Erica, one of our residents, the neighbourhood helped some very thankful people. We couldn't do this without your donations! Erica continues to accept all sorts of items... clothing for ANY season, blankets, shoes and toiletries. Please leave donations on her porch at 2396 Marisa Court. Thanks again neighbours!

The Scoop on Dog Poop

There are many rites of spring we look forward to... buds blooming, birds chirping and flowers breaking ground. One that we do not: finding dog poo on our lawn, sidewalk or street. Most dog owners in Sherwood Forrest are responsible and pick up after their pet. But others don't have the decency to scoop the poop. Some have even been caught on camera! While we don't want to shame anyone (but shame on you!), one of our residents has provided the following info to dispel some myths over dog poop.

It's just poop, it's natural, it's fertilizer. Not true! Dog waste is actually so high in nitrogen and phosphorus that it can have the opposite effect of fertilizer. It can actually burn your lawn if you don't pick it up.

If you don't pick up after your dog, you are putting other people and other dogs at risk of getting sick. Dog waste has more disease-causing bacteria and parasites than other types of waste. These are harmful to humans and can spread disease to other dogs. Dog waste is full of E. coli, salmonella and is a common carrier of the following: Worms, parvovirus, coronavirus, giardiasis, salmonellosis, cryptosporidiosis, and campylobacteriosis. These bacteria and parasites can actually linger in the soil for years.

Another common misconception is that if you don't pick it up, it will quickly break down or wash away. This is not the case with dog poop. In fact, dog waste can take as long as a year to naturally break down, especially since we live in a climate with a cold winter season. So even if you leave the poop on the ground and it does eventually break down, all of those bacteria and parasites will be left to linger there for several more years.

So, dog owners and walkers, PLEASE pick up after your dogs. And then dispose of your dog's waste in your garbage can at home or the park, NOT your green bin. And please don't leave bags of your dog's poop anywhere else!

SFRA has a new look!

You may have noticed that the SFRA logo has been redesigned. Compliments of Mary Zizek and Pinch & Dash Marketing, the updated logo has kept some key elements from the old logo, namely the use of green and a house icon, while making it both welcoming and more contemporary. We hope you feel that it reflects our neighbourhood's personality.

Did you know?

While researching the history of the Dundas Street access for Carmel Heights, the CHRC discovered that our neighbourhood was originally slated to be called "Magic Meadows," but was (thankfully!) named Sherwood Forrest by the daughter of the developer.

Also, the two 'r's in Forrest was a typo!

Meet Chum-Chum. He's 6 years old and you can spot him around Sherwood Forrest, not walking but in the basket of Soni's stroller. He loves cheese, cuddles and sleep!
